Presenter III
Freedom for presenting

Issue November 2006

Pages 2

Do you give often presentations? Do you want while presenting to move around in the room and to watch the reaction of your audience?
Fujitsu Siemens Computers always tries to anticipate our customers' wishes and offers the solution that creates freedom for presenting – the Presenter III.

With the Presenter III you can leaf through, use the laser pointer or manage sound files – all from one device.
It's a must for presentation rooms and for people who require the best.

Reliability
- High quality and stability
- Reliability of delivery
- Everything you need from one company

Mobility
- Connection via radio frequency allows moving in the room during presentations and have better personal contact to your audience
- More concentration on content
- More successful presentations

Usability
- Just plug the receiver into the USB interface
- No complicated installation necessary due to the support of the current operating systems
- Leafing and pointing with one device while moving around
- Separate adjustment for black screen
- Audio managing

Diversity
- Accessories for differentiated demands
- Meet highest demands in terms of ergonomics and usability

Presenter III

Order code
S26391-F7116-L100
